Kiss Me Black

The Birthday Party

Hey, hey, hey, hey
Now they put the stink on us
Throw us to the succubus
Fed us to the incubus
And brung in the saprophagousC'mon and kiss me black
Black as the pit in which you found meShe's like a dog you have to kick her
Sleeps like a swastika
And says, "Everyone's a winner now
'Cos everyone's a sinner now"C'mon and kiss me black
C'mon and sail your ships around me
C'mon and kiss me black
Black as the sea in which you drowned meC'mon and kiss me black
Run your crusty cutlass through me
C'mon and kiss me black
Kiss me black and then undo me
