

Endless Train

Blue Highway

Chorus:

I'm on an endless train
that never slows down
It just keeps rollin' on
headed for a better town
Dawn breaks red in the eastern sky
and the train moves faster towards another light
I'm on an endless train
that never slows down

I race with time to make my way
I cover a thousand miles a day
My God shows me which way to go
and the train won't stop even when I leave this world below

Chorus

Cross a mile high mountain or a windy plain
My Lord is the captain of this train
Won't you run toward the station when the whistle blows
and get on board with the one who'll bring peace to your soul

Chorus
