

Hold You High

Smash Mouth

When your head is spinnin' rounds
When everythin' is upside down
You can look at things differently
Come and check my galaxy You'll be claimin' stars now, baby
I'll be representin' clouds
But before you get too far out, baby
Before you start lookin' down
Let me show you the way how
Let me hold you high Ultra touch, sight and sound
Your feet are safely on the ground now
Starin' off into your space
You're only comin' through in waves right now but I see you comin' my way now, baby
You know I'll be kickin' down
But before you get too far out, baby
You know I'll be reelin' you homeward bound
Let me show you the way how
Let me hold you high
