

# Love Spreads

## Stone Roses For Piano

Love spreads her arms  
Waits there for the nails  
I forgive you boy  
I will prevail

Too much to take  
Some cross to bear  
I'm hiding in the trees with a picnic  
She's over there, yeah

Yeah, yeah, yeah  
Yeah, yeah, yeah

She didn't scream  
She didn't make a sound  
I forgive you boy  
But don't leave town

Cold black skin  
Naked in the rain  
Hammer flash in the lightning  
They're hurting her again

Let me put you in the picture  
Let me show you what I mean  
The messiah is my sister  
Ain't no king, man, she's my queen

Let me put you in the picture  
Let me show you what I mean  
The messiah is my sister  
Ain't no king, man, she's my queen

I have a dream  
I've seen the light  
Don't put it out, and she's alright  
Yeah, she's my sister

She didn't scream  
She didn't make a sound

I forgive you boy  
But don't leave town

Cold black skin  
Naked in the rain  
Hammer flash in the lightning  
They're hurting her again

Oh, oh, oh  
Yeah, yeah, yeah

Let me put you in the picture  
Let me show you what I mean  
The messiah is my sister  
Ain't no king, man, she's my queen

Let me put you in the picture  
Let me show you what I mean  
The messiah is my sister  
Ain't no king, man, she's my queen

Let me put you in the picture  
Let me show you what I mean  
The messiah is my sister  
Ain't no king, man, she's my queen

Let me put you in the picture  
Let me show you what I mean  
The messiah is my sister  
Ain't no king, man, she's my queen

Let me put you in the picture  
Let me show you what I mean  
The messiah is my sister  
Ain't no king, man, she's my queen

Let me put you in the picture  
Let me show you what I mean  
The messiah is my sister  
Ain't no king, man, she's my queen

I've had a dream  
I've seen the light  
Don't put it out, and she's alright  
Yeah, she's my sister
