Naked Eye

Asgaroth

You can come inside
Come into the naked eye
Only world falls in again
I see your face fall in again
It's so dark, I don't know your name
It's so dark and I don't know your name
Only mirrors lie, only mirrors lie now
Only mirrors lie, only mirrors lie now
Through the needle's eye, through the needle's eye now
Only mirrors lie, lie, lie
You can come inside
Come into the naked eye
You can come inside
Come into the naked eye
You can come inside
Come into the naked eye
Naked, naked
I feel high, I feel so high, going up on the wall
And you're down below me
Look all around, look all around now
Look all around, look all around now
Only mirrors lie, only mirrors lie now
Only mirrors lie, only mirrors lie now
Through the needle's eye, through the needle's eye now
Only mirrors lie, lie, lie
You can come inside
Come into the naked eye
You can come inside
Come into the naked eye
You can come inside
Come into the naked eye
Naked, naked, naked, naked
Just wanted a special view
Just, just me and you
Just, just, just the two of us
Just two of us
Going up on the wall
Up on the wall
Going up on the wall

Up on the wall
Naked eye, naked eye
What do you see and what's there to learn
Reading your books, third diagram
Someone's in the room down below
Someone, someone, someone below
Insects, cherries
To the cherries on the wall
[Incomprehensible]
