

This Luv

Donell Jones

Do you mind if I takes this seat right here cause you're sittin' alone
If you're sippin' on crystal girl, I'm buyin' yeah
And if you gotta nigga don't lie, ain't got to front for me
I can give these digits that you can call
You can hit me on the cell if I'm not home
Are you down to swing enough wit me
Or could you be blinded by all this ice you see
I'm willing to give you all this love I got
No relationships involved
Gotta keep it strictly physical[Chorus]
All this love waiting just 4 you
Don't pass it up cause you'll regret it boo
I'll be patiently waitin' to hear from you
Girl you gotta be the one, girl you gotta be the one
Yeah,yeahI don't mind makin' house calls if you want to go blow 4 blow
Girl, whateva you're down for I'm tryin'
It won't hurt him if he don't know
That's how its got to be
I understand that you gotta nigga that lives at home
But I want to be that cat that makes you moan
Are you down to swing enough with me
Or could you be blinded by all this ice you see
I'm willing to give you all this love I got
No relationships involved
Gotta keep it strictly physiscal[Chorus]Talk
Yeah,I'm patiently waiting
There's so many things we can do
So many things we can share
With no strings attached, you like that
