

# Worry About the Wind

Hal

I keep on thinking about, worrying about that time  
You kept on running out and didn't count the cost  
I'll keep on dreaming about, worrying about that time  
You kept on running out and didn't count the cost I worry about the wind  
You worry about the rain  
I worry about the wind  
But that rain getting in your eye I'll be there waiting on you, babe  
(Got a heart, got a sweet, sweet heart for you)  
I'll be there wishing, hoping and praying  
(Got a heart, got a sweet, sweet heart for you)  
I've been wondering what it's like to have that pain  
I got a sweet, sweet heart for you now I keep on thinking about, worrying about that time  
You kept on running out and didn't count the cost I worry about the wind  
You worry about the rain  
I worry about the wind  
But that rain getting in your eye I'll be there waiting on you, babe  
(Got a heart, got a sweet, sweet heart for you)  
I'll be there wishing, hoping and praying  
(Got a heart, got a sweet, sweet heart for you)  
I've been wondering what it's like to have that pain  
I got a sweet, sweet heart for you now I'll be there waiting on you, babe  
(Got a heart, got a sweet, sweet heart for you)  
I'll be there wishing, hoping and praying  
(Got a heart, got a sweet, sweet heart for you)  
I've been wondering what it's like to have that pain  
I got a sweet, sweet heart for you now
