

# Goodbye

Vanessa Williams

Do we really have to say goodbye? Look at your heartache as you try to tell me  
The love we made is not enough for you  
You're walking away from all that we dreamed of  
The things you say you're leaving to Goodbye, goodbye  
You made your mind up  
But your heart can't say it  
Goodbye, goodbye  
Baby, don't say  
No, say anything  
But darling don't say goodbye You wait at the door and turn 'round to see me  
I look in your eyes says you really wanna stay  
And then we touch, your hands are a whisper  
They tell my heart that you can't say Goodbye, goodbye  
You made your mind up  
But you just can't say it  
Goodbye, goodbye  
Say anything  
But darling don't say Oh baby, with or without you  
I'll always love, what we both knew Yeah, baby  
Keep away  
No baby Goodbye, goodbye  
You made your mind up  
But you just can't say it  
Goodbye, goodbye  
Can we talk about this?  
Say anything  
But darling don't say goodbye Don't say goodbye  
Baby, let's talk about love  
Let's talk about it now  
Please, baby don't say  
Baby, let's talk about love  
Without your love I can't go on  
Without you Baby, don't say  
Baby, let's talk about love  
I think better  
Baby, don't say  
Baby, let's talk about love
