

Ujima - Working Together

Mxolisi & The Sankofa Singers

Oh, Let us work together
Oh, Let us help each other
Oh, Let us work together
Oh, Let us help each other

[chorus x2]

Ujima, Let us work together
To make better our community
We can solve
Solve our problems
With collective work
And responsibility

[Rap]

Economic opportunity,
Not only to survive, but to thrive
It's a new century
Don't strive to consume,
But be a producer,
Own your own company
Don't make your aim just to get a good job
Just shoot for the moon
If you miss, you'll still be a star
But when you make it, don't fake it
Won't you help a brother
Riiiiiiiiiiiiise in victory
With collective work
and responsibility
Ujima, you wonder just what it means
It's working together to better our community

Oh, let us work together
Oh, let us help each other
Oh, let us work together
Oh, let us help each other

[chorus x3]
