

# Time Bomb

## Buckcherry

The minute I'm at the back door  
That's the minute there's complication  
The second I'm in the action  
Another bona fide bad creation  
When it goes down they come around  
Money, greed, defaces  
When it falls down they wont be found  
The spotlight queen chases  
It's coming for you, it's coming for me  
Life ain't nothing but bitches and money  
Nothing to lose, nothing for free  
Can't stop now, I got bitches and money  
It's a time bomb, it's a time bomb, yeah  
The moment I hit the bedroom  
That's the moment I'm activated  
The token I spend before you  
The less I want to know you  
When it goes down they come around  
Money, greed, defaces  
When it falls down they wont be found  
The spotlight queen chases  
It's coming for you, it's coming for me  
Life ain't nothing but bitches and money  
Nothing to lose, nothing for free  
  
Can't stop now, I got bitches and money  
It's a time bomb, it's a time bomb, yeah  
The longer I get before you  
Puts out a blast like a supernova  
And if you want a roller coaster  
Just take a slow ride on my shotgun  
When it goes down they come around  
Money, greed, defaces  
When it falls down they wont be found  
The spotlight queen chases  
It's coming for you, it's coming for me  
Life ain't nothing but bitches and money  
Nothing to lose, nothing for free  
Can't stop now, I got bitches and money

It's coming for you, it's coming for me  
Life ain't nothing but bitches and money  
Nothing to lose, nothing for free  
Can't stop now, I got bitches and money  
Bitches and money  
Bitches and money  
Bitches and money  
Bitches and money  
Hey! Come on! Hey!
