Right This Way

Tingsek

Right this way
If you wanna make love to me every day
You and I
We get together in a state of constant hideMake my day
Convince me love will come our way
And I'll stayI don't know why
But right now you and me together's just a lie
And is it worth a try?
I'd say and then I'd run away, goodbyeMake my day
Convince me love will come our way
Like blue eyes
But six foot four and thin like ice
When spring riseRight this way
If you wanna make love to me every day
You and I
We get together in a state of constant hideMake my day
Convince me love will come our way
Like blue eyes
But six foot four and thin like ice
Spring riseMake my day
Convince me love will come our way
Like blue eyes
Six foot four and thin like ice
Spring rise
