

# Differences

## Rich Homie Quan

The difference between me and you is  
I'd rather get money and try and flip me something  
You can't tell me nothing  
Yeah, yeah, yeah

[Hook]

The difference between me and you is  
I'd rather get money and try and flip me something  
You can't tell me nothing  
The difference between me and you is  
You'd rather sit on your ass  
Begging from another man holding out your hand  
The difference between me and you  
Is I would never love her  
I would never trust her  
And she tell me that the difference between me and you  
Is I'm go get a nigga, I swear like hell I go get a nigga

I was up all night counting them benjamins  
Haters eavesdropping say they saw me in the benz  
Bitch you guilty until proven innocent  
She wanna fuck with me so she can get these benefits  
I ain't stupid I ain't crazy,  
Must be out of your mind  
Know I got my back and I ain't talking spine, no vertebrae  
But I heard you say that you and me  
You see the difference is there could never be  
Two of me  
I swear they phony they tryna clone me  
I told the arm to feed me 20's  
Cause that's all you can get when you get plenty  
Rich homie baby

[Hook]

The difference between me and you is  
I'd rather get money and tryna flip me something  
You can't tell me nothing  
The difference between me and you is  
You'd rather sit on your ass

Begging from another man holding out your hand  
The difference between me and you  
Is I would never love her  
I would never trust her  
And she tell me that the difference between me and you  
Is I?am go get a nigga, I swear like hell I go get a nigga

The difference is I paid attention whatever I say they listen  
I?ma idol pay attention  
I ain?t seen em in a minute  
Teasing gotta pay him visits,  
And I get stupid on these tracks some say I?m ig'nant  
Got em sayin quan getting it  
Bot you know my palm itching  
Labels talking to me them folks come on with it  
I know what the difference is see me I?ma foreign whip it  
Show em what the business is, oh and my phone ringing  
I inhale and my nose bleeding  
Smoked a whole zip for no reason  
Two doors but not four people backstreets, and we slow creeping  
O, okay, they bring the guns out them bullets  
Make you run fast  
Venn diagram compare a contrast
