## Starflyer 59

Stay these days and you will find  
All the hurting here will die  
Be better when you're mine  
And we'll stay In the basket and the blue of your eyes  
A basket and the blue skies of your eyes I don't care about the boy  
Throw up your head hit the road  
I won't feel the wedding mourn  
If you stay the same In the basket and the blue of your eyes  
A basket and the blue skies of your eyes
