

# Live Forever (Fly With Me) [feat. Daryl Hall]

## Gym Class Heroes

I see a window and all I can think about is  
So do you wanna fly with me? Do you wanna fly with me?  
I know it sounds crazy but I can't find solid ground  
So do you wanna fly with me? Do you wanna fly with me? And I been staring out this window for the past  
eleven hours  
Thinking of all the opportunities this window has to offer  
From the twenty third floor and a filing cabinet east Manhattan  
And FDR is beautiful as I'm watching all the cars fastin' Then a couple stars twinkle so I started laughin'  
And a couple walk by and they look so happy  
I booked this room at this place called The Last Resort  
All my bags are packed, I got my jacket and my passport And a first class ticket to the afterlife, you dig me?  
Now is you is or is you ain't with me?  
And I fully understand if you got other plans  
But I can't see you hand in hand with another man I been on auto-pilot since we last spoke  
And I don't wanna board this flight on a bad note  
I want you to think about it but either way I'm going  
And if you really love me then here's your chance to show it I see a window and all I can think about is  
So do you wanna fly with me? Do you wanna fly with me?  
Oh, oh, I know it sounds crazy but I can't find solid ground  
So do you wanna fly with me? Do you wanna fly with me? Oh, oh, we'll live forever and they will write a novel  
about our love  
(Do you wanna fly with me?)  
Oh, oh, we'll live forever and they will write a novel about our love  
(Do you wanna fly with me? Do you wanna fly with me?)  
So do you wanna? She looked me dead in the eyes and took me by the hand  
Kissed me on my cheek and said, baby, listen I understand  
You don't have to leave, plus I'm scared of heights  
So just put down your luggage, forget about this flight You and I, you know we been through a lot of things  
But it's no reason to start trippin' and arguing  
She said, you are my king and I place no one above you  
And I don't have to board a plane for me to show I love you And all this talk about the afterlife is kinda creepy  
So let's just go lay down and talk, I'm getting kinda sleepy  
I kinda smiled and we both walked to the window  
I pulled the shutters, started staring at the sky I wiped a couple tears away then we looked at each other  
And I could see the stars twinkle in her eyes  
I told her about the couple that I saw earlier  
She said, I'm sure they were cute but they're no you and I see a window and all I can think about is  
So do you wanna fly with me? Do you wanna fly with me?  
Oh, oh, I know it sounds crazy but I can't find solid ground

So do you wanna fly with me? Do you wanna fly with me? Oh, oh, we'll live forever and they will write a novel  
about our love  
(Do you wanna fly with me?)  
Oh, oh, we'll live forever and they will write a novel about our love  
(Do you wanna fly with me? Do you wanna fly with me?) So do you wanna fly with me?  
(So do you wanna fly with me? Do you wanna fly with me?)  
Do you wanna fly with me, with me, with me, with me?  
(So do you wanna fly with me? Do you wanna fly with me?) Oh, oh, fly away, wanna fly away  
(So do you wanna fly with me? Do you wanna fly with me?)  
Oh, don't think about it, yes, just sit back and fly away  
(Do you wanna fly with me? Do you wanna fly with me?) Oh, what you think is wrong or right, you gotta stand  
by  
(So do you wanna fly with me? Do you wanna fly with me?)  
Everything, you know, got a reason, you gotta fly, fly away  
(So do you wanna fly with me? Do you wanna fly with me?)  
Oh, fly away Don't worry, [Incomprehensible]  
Don't worry, [Incomprehensible] you think you're right, go fly  
Don't bear with things, just stay clear with things, oh, fly  
Just stay close to me, you mean the most to me, oh, fly Oh, don't worry, don't worry, just step back, just step  
away, oh  
Oh, keep on doin' what you do, gonna fly, oh, oh, oh  
Sing something to you to change what you worry 'bout  
Don't think 'bout it, oh, oh, just be here with me  
I can share your misery, don't worry, oh
