

Got Love

Gerald Levert

I want someone that makes me happy
I want someone that I make smile
I want someone with things in common
I want someone to bear my child And I want someone that I can cry to
I want someone to cry for me
And I want someone without the drama
See I want someone to love me deep, if you If you want rain or shine
If you got love you can have mine
You want heart, you want time
If you got love you can have mine I want someone who loves my bad days, yeah
I want someone who's spiritual, yeah yeah
And I want someone to keep my secrets
See I need more than just physical If you want rain or shine
If you got love you can have mine
You want heart, you want time
If you got love you can have mine If you want happy, I'll give you happy baby
If you want kind, I'll give you kind
If you got love, you can have mine
(You can have all of mine, all of mine, all of mine!) Instead of playing games all the time
(All the time, all the time, all the time)
If you got love you can have mine
(Give me your love baby)
(You can have all of mine, if you got love, if you got love baby) If you got love you can have mine
(I'm gonna give you every piece of me, every piece of me)
If you got love you can have mine
(Constantly, constantly) If you got love you can have mine
(If you got love, got love, got love)
(Everything you want, everything that you need baby, baby)
If you got love you can have mine
(It's yours, it's yours, yeah)
(You can have it, you can have it if you want it) You just entered my world, Gerald's World
I'm still looking, I'm still searching for true love
Got love? Well you in the right place
At the right time with the right man
'Cause I aim to please you, stick with me for a little while
We gon' go on a wild ride together, me and you
Gerald's World
