

# Hot Blood

## The Psychonauts

Just a shakin' in my knees, just a cold chill  
Don't know what it is, some call it a thrill  
Just a lump in my throat, just hot blood  
Don't know what it is, some call it love  
Well I saw you out in your car  
You had the top down, you were drivin' real slow  
Just a shakin' in my knees, just a cold chill  
Don't know what it is, some call it a thrill  
Just a lump in my throat, just hot blood  
Don't know what it is, some call it love  
Well I saw you in the grocery store  
Buyin' tomatoes for a casserole  
Just a shakin' in my knees, just a cold chill  
Don't know what it is, some call it a thrill  
Just a lump in my throat, just hot blood  
Don't know what it is, some call it love

Well I saw you in the laundry mat  
Washin' your clothes, gettin' all the dirt out  
Just a shakin' in my knees, just a cold chill  
Don't know what it is, some call it a thrill  
Just a lump in my throat, just hot blood  
Don't know what it is, some call it love  
Well I saw you with your car broke down  
Fixin' your flat with a tire iron  
Just a shakin' in my knees, just a cold chill  
Don't know what it is, some call it a thrill  
Just a lump in my throat, just hot blood  
Don't know what it is, some call it love  
Just a shakin' in my knees, just a cold chill  
Just a lump in my throat, just hot blood
