

# Black Widow

## Them Bruins

Spider web stockings  
At the pearly gates  
Ruby lips, Revlon kiss  
Born to seal your fate  
Beautiful and deadly  
Making love in a suicide bed  
Once you taste that poison  
Darling, you're dead  
Catch you in those dark eyes  
And steal your breath away  
(Black Widow)

The curse on her calls your name  
To this wicked game called love  
(Black Widow)

Though you know her kisses kill  
You can't resist that deadly thrill  
Black Widow

Long legs squeeze you tight  
Hold you for one endless night  
Her touch is cold, her bite is deep  
She's everything you'll ever need  
Catch you in those dark eyes  
Steal your life away  
(Black Widow)

The curse on her calls your name  
To this wicked game called love  
(Black Widow)

Though you know her kisses kill  
You can't resist that deadly thrill  
Black Widow

Comin' outta the dark, hey  
Black Widow  
Goin' straight for your heart, hey  
Black Widow  
Widow, ha, yeah  
Black

The curse on her calls your name  
To this wicked game called love  
(Black Widow)

Though you know her kisses kill  
You can't resist that deadly thrill  
    (Black Widow)  
    Comin' outta the dark, hey  
    Black Widow  
Goin' straight for your heart, hey  
    Black Widow  
    Widow
