Low Down

The Mallett Brothers Band

Chorus
You wanna live in the city
You wanna chase your dreams
You wanna live in a big house
You wanna live with means
I wanna live in a small town
Far away from the pavement
Keepin it low down

I wanna stay in the back woods
Without nobody around
You wanna go to the parties
with all the lights and all those sounds
I'll never be the adventure
That you so obviously need
On the low down

(Chorus)

I only speak what I mean to
Try to hide my eyes
Cause when you're smilin at me
It looks just like lies
You're never gonna be happy
In this simple kind of life
Can't live on the low down

(Chorus)

I got a bottle of whiskey
I'm always carryin' with me
I got a big ol' black cloud
Up above my head

Since you ain't been here
In this small town
It's been gettin me low down

(Chorus)
