

# Echolocation

## Gone Is Gone

The shapes are shifting in  
Rolling  
Like a snake is slithering Sinking sand  
Listen to silence  
Hear to invisible tongue  
Lay it all to rest Half asleep wavering  
All knowing who you are  
Patient like the threes Energy  
What you give  
The echo ride  
Coming to you in return  
Energy scatter in the wind and grow  
Decay in soil  
A cycle of the earth  
Repeated and learned Receive what's thrown out  
Finding out where you are  
Circle and return Energy  
What you give  
The echo ride  
Coming to you in return  
Energy  
Energy you scatter in the wind and grow And then you'll know deceit my friend Just a pawn  
Between your dreams  
You're alive  
One pull  
Under you feet  
From the deep Energy  
What you give  
The echo ride  
Coming to you in return  
Energy  
Energy you scatter in the wind and grow
