

Blood Red

DMX

[Intro]

Man, this is it

This is what they've been waiting for baby

This is what they've been waiting for

They've been waiting for the dog to scratch

They've been waiting for the dog to scratch

Already got Grand Champ status

Tell me how they feel about this?[Verse 1]

All I see red, blood red

Fuck that nigga said? One dead

Gun to the head, didn't run

But instead, wash my hands and face

His blood, it shed

Never had it all, I was born demented

Fuck apologizing, if I said it, I meant it

If I don't like you, fuck you

Never pretendin'

Crash blew up and burned - that's how it ended

Urban legend, I heard it mentioned

Dog is right at home in the dirt and trenches

My birth's intentions [?] was the first to sentence

What's life without parole for the worse offenses

Senseless slaughters, kicked open the door

Why everybody gotta die?

Why our sons and daughters?

With orders, we are clear from the start

First, turn off the lights

And then murder whatever moves in the dark, nigga

[Hook]

Blood red!

Blood red!

If they don't know by now, they about to find out Blood red!

Blood red!

How the dog get down, and what the dog is about[Verse 2]

Even though I know it is the truth, you don't mean it

You haven't earned it, you haven't seen it

Nightmares, all you can do is dream it

You run from it, and I end up in between it

What was the first curse, turned into a blessing

With burners that shit was burned, turned into a weapon
Built for war, bitch ass nigga
That shit I'm gonna spit will get you killed through the door
Found 'em on the floor - the fetal position
There is no 'or,' came here with leave 'em intentions [?]
Thought shit was funny, like shit you was saying was ill
Until you made that left turn, and shit got real
When it come to rap, you cats got it all wrong
Got bars for days, but can't make a song
If you did half of what you said when you was flapping your jaw
Push dem bricks, the fuck yous rapping for? Nigga! [Hook]
Blood red!
Blood red!
Man, if they don't know by now, they about to find out Blood red!
Blood red!
How the dog get down, and what the dog is about mothafucka! Blood red!
Blood red!
If they don't know by now, they about to find out Blood red!
Blood red!
How the dog get down, and what dog is about [Outro]
They wasn't, they not ready!
They not ready! [x 10]
C'mon man
My plan
It is not a fucking game
