

# Jamaica I'm In Love

Kieran Goss

Jamaica I'm in Love

Take me where the moon hangs high  
Nights go by like John Crow fly  
Open shutters and a sea salt breeze  
Sift as butter in the sweet gum trees  
Take me where the warm winds blow  
Crepe Myrtle and a planting grow  
Giant Banyon full of white wing dove  
Jamaica I'm in love

A cup of coffee and a brand new day  
I can't remember how I got this way  
I'd like to say that everything's okay  
If I do, it ain't true  
An idle boarder in a traffic jam  
How I got to be the way I am  
I'd like to say that I don't give a dam  
But I do, yeah I do

Where there's sun, sand and sea  
That's where I want to be

Take me where.....

People talk a lot but money screams  
The world we're living in is all extremes  
I'd like to say I know just what it means  
But I don't, so I won't

Where there's sun, sand and sea  
That's where I wanna be

Take me where....
