

# Good Old Times

## Fanmail

is this the first part  
or is it coming back  
to the worst part  
it's a matter of fact  
it's bad this time  
why can't you figure it out  
it's dead this time  
it's all worn outwhatever happened to the good old times  
whatever happened to the days we left behind  
whatever happened to the good old times  
can't we replace the times when we fell behindit's the fall of your heart  
when you're wearing the crown  
we all played a part  
in tearing it downit's bad this time  
why can't you figure it out  
it's dead this time  
it's all worn outwhatever happened to the good old times  
whatever happened to the days we left behind  
whatever happened to the good old times  
can't we replace the times when we fell behindwhatever happened to the  
whatever happened to thewhatever happened to the good old times  
whatever happened to the days we left behind  
whatever happened to the good old times  
can't we replace the times when we fell behind  
whatever happened
