

Drown

Kopek

Woke up this morning, I was thirsty for some rain
My alcohol, my world, my love, my hate, my pain
Just a bottle till I realize
Last night down bouncing times
I'll be waiting

Drown in the river with me
I'm torn between counting the devil, you see
From midnight on till the morning
Can't let go, won't let it soak
Now sober a day, still we can't find any relieve
So come on, drown with me

I'm putty in your hands as I'm pass the sea
Come give me water, what I need my neon dream
So come alive, chalk your name on the board
This place isn't just a liquor store
Sink a ball of bruises, you can never lose
Come on in

Drown in the river with me
I'm torn between counting the devil, you see
From midnight on till the morning
Can't let go, won't let it soak
Now sober a day, still we can't find any relieve
So come on, drown with me

Me and the blues, we got nothing to lose
Me and the blues, we got nothing to lose
Me and the blues, we got nothing to lose
Me and the blues, we got nothing to lose

Drown in the river with me
I'm torn between counting the devil, you see
From midnight on till the morning
Can't let go, won't let it soak

Drown in the river with me
We'll jump, let's turn it into ecstasy
Spin your heart around

Now sober a day till can't find no relieve
Now sober a day, still we can't find any relieve
So come on, drown with me
