

Shine (Single Version)

Camouflage

This is the story,
we should shout out loud -
tell everybody,
that no one lives without:
Shine Shine Shine within your mind. This is the story,
we should shout out loud -
show everybody,
what joy is all about:
Shine Shine Shine within your mind.
This is the world where we have to live,
there's so much that we have to give,
so try to Shine Shine Shine within your mind. In a world where we miss belief,
there's so much that we can receive,
if you Shine Shine Shine within your mind. Shine from the inside,
to light up the dark night.
Shine from the inside,
to light up the dark night. This is the story,
we should carry out -
everybody has to fight the doubts,
to Shine Shine Shine within your mind. This is the world where we have to live
and the things that we have to give,
so try to Shine Shine Shine within your mind.
In a world where we miss belief,
there's so much that we can receive,
if you Shine Shine Shine within your mind. This is the world where we have to live,
there is so much that we have to give,
we gonna Shine Shine Shine within our minds ...
