

Chevy Nights

Survivor

When trouble's on my mind I like to reminisce

It was a simpler time on just a night like this

We were so new to love we'd educate a guess

I taught you all I knew and you filled in the rest And I said, Ooh those were heavy nights

We were revin' up, those chevy nights with you

And I said, Ooh, near the levy site

It was me and you and chevy those heavy nights with you September nights were cool but though the streets
were hot

Perhaps the memories add mystery to the plot But deep within my soul, I'm glad the times have changed

As long as rock and roll and the chevy's stay the same And I said, Ooh those were heavy nights

We were revin' up, those chevy nights it's true

And I said, Ooh, near the levy site

It was me and you and chevy those heavy nights with you And I said, Ooh those were heavy nights

We were revin' up, those chevy nights it's true

And I said, Ooh, near the levy site

It was me and you and chevy nights And I said, Ooh those were heavy nights

We were revin' up, those chevy nights it's true

And I said, Ooh, near the levy site

It was me and you and chevy nights And I said, Ooh those were heavy nights

We were revin' up, those chevy nights it's true

And I said, Ooh, near the levy site

It was me and you and chevy nights
