Lost

Evergrey

I have been walking this long dark road
And I have been climbing this tree so old
I have been wanting to let it all fall
It's making me
Turning me...Inside out
Going outside in
As I lie here
Inside out going outside inYou promised me to leave me be
But I got lost and could not see clearly
Now I'm afraid of whom I used to be
Right now I'm just glad that you found meInside out
Going outside in
As I lie here
Inside out going outside inCan I admit to you that I was wrong?
Will you forgive me for what I have done?
Would you leave me here wounded and bleeding?Inside out
Going outside in
Inside out going outside in
As I lie here...
Inside out
Going outside in
As I lie here
Inside out going outside in.
