

Stay Out Of Jail

Motorhead

Still watching the sky
We ain't sure of you yet
New in town, been around
Heartbreaker for sure
Maybe running from the law
Are we passing the time?
Just moving down the line
No time to fall, no time to fail
No time for anything at all
Stay out of jail
Still watching the door
Just watching the street
City born, ripped and torn
Still turning tricks
Enough to make you sick
Just passing the buck

You might be real bad luck
No time to fall, no time to fail
No time for anything at all
Stay out of jail
Can't see you right now
We ain't got the time
Bad news, stand accused
A fool in drag
Got your nose in a bag
Whacked out of your head
Y'all remember what I said
No time to fix, no time to bail
No time for one last call
Stay out of jail
