

# Always

[Rilo Kiley](#)

1, 2, 3, 4 I should have known with a boy like you  
Your middle name is Always  
I'd always love you  
Ahh, yeah You let the needle drop  
I think that you could do so much better  
Those conventions are taking their toll on you A phantom is disguised  
It's horrifying  
Right before your eyes  
Phantom is inside I should have known with a boy like you  
Your middle name is Always  
I'd always want you  
Ahhh, yeah A phantom is disguised  
It's horrifying  
Right before your eyes The phantom is inside  
It's hideous  
Right before your eyes The phantom is watching you  
The phantom is watching you, you
