

Yes

Demi Lovato

Face me (face me)
Take me (Take me)
Save me
Don't try to change me Face you (face you)
Take you (take you)
Save you I won't try to change you Yes, yes So here's my body that I'm giving to us
Here's my arms that'll hold us up
Here's my life dedicated to love
I tried to give you everything you deserve
And I can't promise that it's gonna be fine
But here I am if you're ready to try
Here's my tears when you tell me those words
Here's my life, for better or worse
For better or Yes, yes
Love me (love me)
Earn me (earn me)
Stay true, I'll never hurt you
Love you (love you)
Earn you (earn you)
Stay true, I'll do what I have to
Yes, yes Here's my body that I'm giving to us
Here's my arms that'll hold us up
Here's my life dedicated to love
I tried to give you everything you deserve
And I can't promise that it's gonna be fine
Here I am if you're ready to try
Here's my tears when you tell me those words
Here's my life, for better or worse
For better or Yes, yes (yes, yes, yes, yes)
And I can't promise that it's gonna be fine
Here I am if you're ready to try
Here's my tears when you tell me those words
Here's my life, for better or worse Here's my body that I'm giving to us
Here's my arms that'll hold us up
Here's my life dedicated to love
I tried to give you everything you deserve
I can't promise that it's gonna be fine
Here I am if you're ready to try
Here's my tears when you tell me those words

Here's my life, for better or worse
For better or Yes, yes
