

# Star Of Sirius

## Steve Hackett

Above the colour of amber stained evening  
An audience danced  
Led by a showering hand that brings water  
An audience danced  
Led by a showering hand that brings water  
To both sea and land  
Unlock the door of night  
Nebulous bright

Again renewed by the vessels of Isis  
You're ready to fly  
Although the journey is still far from ended  
You gaze at the sky  
Above the cloudless night  
Nebulous bright

He who knows love knows who you are  
Worlds you may find lit by a star

He who knows love knows who you are  
Worlds you may find lit by a star

Again renewed by the vessels of Isis  
You're ready to fly

He who knows love knows who you are  
Worlds you may find lit by a star...
