Angel

Ernie Halter

I was broken, I was on my knees
I was searching for a sign
And I was wandering, I was lost at sea
But you placed your heart in mine
And how did we get here now?
I am so grateful that I've been found?I've got an angel, you are my angel
As if you can't tell from the smile on my face
You give me sensation, sweet jubilation
And I've got an angel, I've got it madeI don't have a lot to offer you
But I'll give you all I have
For your love is unconditional and true
I wanna learn to love more like that
And there is one thing that's clear
Without your love, I would not be standing hereI've got an angel, you are my angel
As if you can't tell from the smile on my face
You give me sensation, sweet jubilations
And I've got an angel, I've got it madeYour love gives me wings
Your love is all I need
To believeI've got an angel, you are my angel
As if you can't tell from the smile on my face
You give me sensation, sweet jubilation
I've got an angel, I've got it made
And I've got an angel, I've got it made
And I've got an angel, I've got it made
