

# Blue Satin Pillow

## Bread

I'd like to take you home girl  
And make you mine  
I'd get you all alone girl  
And take my time Think how you feel in your heart when you climb to the top of  
Of a big roller coaster ride  
You're gettin' high on desire worth waitin'  
On the other side I'd like to treat you nice girl  
And treat you mean  
I'd get you on your own girl  
And fill your dreams Think how you feel in your heart when you get to the fall  
Of a big roller coaster ride  
That's how it is and the way that it would be  
If you come with me Blue satin pillow, black satin silhouette  
On the window shade of the night  
Soft light a glowin' sweet night a goin'  
Out like the candle's flickerin' light You know by now, it's your love that I'm after  
And I don't want no alibi  
There's just no need to take no for an answer  
Yes, is in your eyes I'd like to take you home girl  
And make you mine  
I'd get you all alone girl  
And take my time I'd like to treat you nice girl  
And treat you mean
