# All I Want

## Oscar and the Wolf

I'm here...woohoow
here...woohoow...here
im here...woohoow...here...woohoow..here
come and hear the siren
come on let's run
with our excitement
come on let's run
open your eyes like a sparrow
come on let's try
it gets cold and gets bolder in here
All we want is the moon x3
I'm here...woohoow
here...woohoow...here
can you see through walls here
I want to try
but I watch your toes move
and all the time
open your eyes like a sparrow
come on let's try
it gets cold and gets bolder in here
All we want is the moon x5
Is that what want now
eehee x2
Is that what you want x2
Is that what you want now
eehee x2
