

Persuasion

Santana

You got persuasion
I can't help myself
You got persuasion
I can't help myselfSomething about you baby
Keep me from goin' to somebody elseYeah, any way you want now
Now, now baby
You put me in a daze
All the timeLook whatcha got for me baby
Like the Devil in disguiseSomething about you baby
You're one, you're one of a kindOh, this spell you put on me
Has just outdone me, babe
I can't keep the rain
From comin' downLook out now, I can't get out from under
But I wouldn't want to even if I canSomething about you baby
Make me feel, make me feel like a man
