

# Count Me In

## Jools Holland; Ruby Turner

Could there be a different ending to the same old story  
'Cause you're not the first to say, you're gonna be there for me  
I need to know what's in your heart, can you finish what you start

How can I be sure, I won't be sorry  
If heartaches and tears and shadows of doubt  
Are part of the deal, you can count me out  
But if you're talkin' about a game I can win

You can count me in  
When you tell me you're the one I've always needed  
You don't know how much I'm wanting to believe it  
But I've heard it all before, now I'm needing somethin' more

A promise is no good if you can't keep it  
If heartaches and tears and shadows of doubt  
Are part of the deal, you can count me out  
But if you're talkin' about a game I can win

You can count me in  
If heartaches and tears and shadows of doubt  
Are part of the deal, you can count me out  
But if you're talkin' about a game I can win

You can count me in  
You can count me in
