Not What It Seems

Sammy Pharaoh

(Yeeeehhhaaaa ooooo-yeehhhhhaaa)

Let's Go
Something is not Right,
I think you people need to open your mind,
It seems like everyone's blinded by all the lights,
and I see it happening all the time, it's not right,

It's Not What It Seems Like
It's Not What It Seems Like Baby
It's Not What It Seems Like
And We need to realize that this is the real life
It's Not What It Seems Like

It's not what it seems like the real world that easy,
it's not like the bulls**t you see on MTv, believe me,
our future's destined for dump,
see they feed us all these fantasies so we're desperate for one,
but that's not how this just works,
we're all in the muzeltop verse.
first to be robots on this earth repeating everyday of our work,
doing the same S**t, I'm sick and basic,
goin-going for greatness and trying to see all these places before
I pass away I'm trying to stay you never know when it could be your last day.
That's why I pray that I never lose my way and all these temptations make me lose my faith,
but It's like,
So over it all,
I'm bracing my phone, face in the wall,
I'm not kissing no a**es, see clear without the glasses,
It's time to play ball.

Something is not Right,
I think you people need to open your mind,
It seems like everyone's blinded by all the lights,
and I see it happening all the time, it's not right,

It's Not What It Seems Like
It's Not What It Seems Like Baby
It's Not What It Seems Like
And We need to realize that this is the real life

It's Not What It Seems Like

What's your perception,
about this skill,
this misconception,
if you simply base up views, when I spark your interest,
in multiplyzin the crew,
so don't show up, so whats up, real up,
right the hell light up the views,
goddammit i'll be damned if i lose,
dna-dna-dna show's hit the moon,
selling ticket paying the dues, don't know playing by the rules,
all im saying is the truth, I Don't know what else to do,
I keep killing every song do you know this or need proof,
I'm not new i've been doing this,
yes it's true,
It's three years now I'm twenty two,
not the kid now cause I grew,
and I Know,
Yeah I know,
That over it all i'm taking a fall and breaking the wall,
I'm creating these chances just making advances,
I know how to ball.

Something is not Right,
I think you people need to open your mind,
It seems like everyone's blinded by all the lights,
and I see it happening all the time, it's not right,

It's Not What It Seems Like
It's Not What It Seems Like Baby
It's Not What It Seems Like
And We need to realize that this is the real life
It's Not What It Seems Like
