Hawaii Song

Stick Figure

Gone, so gone
I want to get away from this place
Home is not where I want to be
Not today, take me away
I am on my way
12 hours on a plane
In a short time I'll be on my away

Lone, all alone
I flew out by myself to meet my friends
From there, we got into a van
There was reggae on the radio
You have no idea
You have no idea
This is life

Land-man know, he's there
He knows, he's there

Long, so long
I've been out on the road
It's not for me
And all, all I want to do is leave
But not today, take me away
Well I am on my way
To an island on the sea
I will escape and lord I be will free

Free, so free from this place, from this place
I love this world and all it can do for me
I love this world and all it can do for me
But I know, he's there
But I know, he's there
This is life
This is life

Land-man knows, he's there
Lord i know, he's there
