

Womanbound

[Danko Jones](#)

I declare my destination
Straight to hell 'cause that's where I can find you baby
You're like the devil baby
You're hot hot hot
And I can tell by the way you wag your tail
Someplace where you can't feel your heartbreak
No empty feelings lonely nights when your libido aches
I'm a man womanbound
Put me on the train that's womanbound
Time to pack my bags I'm leaving on vacation
I got my ticket and I'm headed for my getaway
There's gotta be a better place for a bachelor
Temperatures rise when you strut w/pride
Someplace where you can't feel your heartbreak
No empty feelings lonely nights when your libido aches
I swear to God I need 100 just to calm me down
Baby start me engine climb aboard because I'm womanbound
I'm a man, womanbound
Put me on the train that's womanbound
