

Cold Night

You Me at Six

It was a cold night, we laid with each other just to stay warm.
Up all hours, not for the last time.
As it's a cold life, stay with each other one last time.
We could always run away some other night. I knew the moment I met you,
I could never lose you.
I knew the moment I met you. Don't you let me go this time.
Don't you let me go this time.
Don't go baby, it's time for us you know.
Don't go honey, this way we'll never know.
Don't go honey, this way we'll never know. It was a cold night, the talk of forever kept us warm.
But even forever, doesn't last that long.
I say, say you'll never, say you'll never change. Say you'll never, say you'll never change.
Say you'll never, say you'll never change.
Say you'll never I knew the moment I met you,
I could never lose you.
I knew the moment I met you. Don't you let me go this time.
Don't you let me go this time.
Don't go baby, it's time for us you know.
Don't go honey, this way we'll never know.
Don't go honey, this way we'll never know. Say you'll never, say you'll never change
Say you'll never, say you'll never change
Say you'll never, say you'll never change
Say you'll never, say you'll never change
Say you'll never, say you'll never change
Say you'll never, say you'll never change
Say you'll never, say you'll never change
Say you'll never Don't you let me go this time.
Don't you let me go this time.
Don't go baby, it's time for us you know.
Don't go honey, this way we'll never know.
Don't go honey, this way we'll never know. Say you'll never, say you'll never change.
