

# It's Over

## Teddy Pendergrass

Come lay your head an my heart  
Soon be apart, stay here the touch of morning  
I'm glad we're leaving as friends  
Baby, by the way I forgot to sayCan't we try  
Love was never born to say goodbye  
Just another helpless fool in love is what I am  
But I don't give a damn  
Sorry, I forgot myself  
I guess that I'm just not myselfAnd I know that we're not supposed to cry  
Love was supposed to die when people get to know each other  
In case I don't see you again  
Really wish you well  
Baby, this is hellCan't we try  
Love was never born to say goodbye  
Touch me one more time and make me feel that I'm alive  
And if we don't survive  
At least we'll have a moment here  
With honest pain and tearsThen say goodbye  
Come lay your head down on my heart  
The morning suddenly leads you  
You know, yet I don't need you  
We can't go back to yesterday  
Go away  
Girl, I wished you'd stayCan't we try  
Love was never born to say goodbye  
Touch me one more time and make me feel that I'm alive  
And if we don't survive  
And we'll end like we began  
And even though it's overCan't we try  
Let's go back to yesterday  
Just another helpless fool in love is what I am  
But I don't give a damn  
See, once before I set you free  
I just got to hold you close to meCan't we try  
Love was never born to say goodbye  
I want you to touch me, touch me one more time and make me feel that I'm alive  
And if we don't survive  
Then we can end like we began  
And even though it's overCan't we try

Let's go back to yesterday  
See, I'm just another, just another helpless fool in-  
    In love is what I am  
    But I don't give a damn  
See, once before I set you free  
    I got to have youCan't we try  
Love was never born to say goodbye
