Like You Used To

The Cranberries

When I think about the things I said to you last night
Well I was wrong, I didn't know what I was saying
Anything that wants you
You used to hold me so tight
But now it's gone, and you drastically ??
Don't you love me anymore, anymore, anymore?
Don't you see me, like you used to?
Like you used to.
You used to see me like nobody else could,
And now it's gone, the way you're falling forever, ever.

And when they told me then that you were no more
Should I leave? Or should I take it all behind me?
Don't you love me anymore, anymore?
Don't you see me, like you used to?
Like you used to.
I'm falling down
Falling down, falling down, falling down
I'm falling down
Falling down, falling down, falling down
I believe you
