## Black Eyed Peas

Yeah, yeah

You gotta keep it on the positiveNa, na, naNowadays it's hard to make a livin' but easy to make a killin

'Cause people walk around one just one itchy feelin'

I feel nauseated from your evil drug dealin', bless feelin'

The definition of top billin'

It's ill the my vocabulary, diggin' your life style scary

No wonder why you carry a two to retaliate

Tryin' to annihilate the one a two annihilate you

They got some dude just to get you buggedReally y'all, this shit is all out of whack

You can go out at night yet you won't come back

And this verse that I'm kickin' some might take it personal

And come out and get me, but worst of all

These rap fans are taking these shit serious

It ain't New York versus L.A.

'Cause really it's hip-hop, not a big ole' problem

Now let's see what we could do to solve 'emNa, na, na

We gotta keep it on the positive

Na, na, na

We must keep it on the positiveLucifer's got your little mind twisted

'Cause God once gave you the meaning of life and you missed it

You've been listed in the devil's books

Livin' the life of crooks and hoes and in such and such

All that shit, that don't mean much

You got one hand on your gat while your genitals are being touched

Livin' the life that's plushed and glamorous

Drunk and high with your little soul's crushedDon't you know that life is a mirage?

I keep myself sober so my soul is camouflaged

If the devil cannot see me tell me how can he attack me

If he can't grasp a hold, tell me how can he try to snatch me

I ain't talking about the white man, the black man or a Jew man

'Cause the devil can exist in every human

Look how Biggie went out, and Tupac went out

And Martin, and Malcolm, and Kennedy, and Squeek

And Adam, and Rene, and so on, and so onNa, na, na

We gotta keep it on the positive

Na, na, na

We gotta keep it on the positiveEven though we got problems

We gotta find some way to solve 'em

I hope you come and follow me now

(Keep it on the positive)  
Even though we got problems  
I hope you find some way to solve 'em  
We gotta keep it on the positive P O S I T I V I T Y  
P O S I T I V I T Y We're currently located over the Los Angeles scene  
While you see a lot of niggas perpetrating like they're kings  
With this so-called God complex  
But when I see they mind they only see checks  
So let's get our heads together, let's form a bad weather  
Proclaim against perpetrators well said, alligator  
Our realm, no perpetrator, a society choose the elevator  
Of success by identity cross-fader  
Complex thinking they're really much greater  
Plain raw, harness all, maybe rough radar  
Tough enough to perpetrate, I talk to you later But wait, what about that midget brains  
Unable to see reality too unreal, I'm sealed with mind, body and soul  
Connected together, we tougher than leather  
We much more than you think we are  
We are the product of our on environment repent  
With equality, plus duality and taken all kind of possibilities, bilities  
I sing the song from the soul, let it rise from the tone  
Let it rhythmically grow into it's own life, let it become you  
Then you become it, once you become it everything will be infinite We much more than you think we are  
We are the product of our on environment repent  
With equality, plus duality mainly we present positivity  
I sing the song from the soul, let it rise from the tone  
Let it rhythmically grow into its own life, let it become you  
Then you become it, once you become it everything will be infinite  
Will be infinite, will be infinite, will be infinite
