

# Never Walk Alone...A Call To Arms

## Megadeth

Hiding in any door way  
And any shadow  
Any place where danger  
Waits to kill my time There is one who lies and waits  
To seal your fate  
As sure as you live and die  
Live and die, live and die When you feel that somethings wrong  
I'll shelter you and keep you warm  
I'll never let you walk alone  
I loved you when you still hated me I'm coming and I won't be long  
Time to reap what I have sown  
Never ever let you walk alone  
I know your enemy once was me Let me wrap my arms all around you  
Suffer the trespasses that you made  
I will drink your pain away  
Forever and a day If you just call out my name  
If you just call  
Call my name  
If you just call, even whisper it When you feel that somethings wrong  
I'll shelter you and keep you warm  
I'll never let you walk alone  
I loved you when you still hated me I'm coming and I won't be long  
Its time to reap what I have sown  
Never ever let you walk alone  
I know your enemy it once was me When you feel that somethings wrong  
I'll shelter you and keep you warm  
I'll never let you walk alone  
I loved you when you still hated me Im comin and I won't be long  
Its time to reap what I have sewn  
Never ever let you walk alone  
I know your enemy it once was me When you feel that somethings wrong  
I'll shelter you and keep you warm  
I'll never let you walk alone  
I loved you when you still hated me I'm coming and I won't be long  
Time to reap what I have sown  
Never ever let you walk alone  
I know your enemy it once was me
