Sunrise

The Cataracs

I'm staying up late tonight
I'm in a forgien city
Poppin' bottles in the ice
And all these girls are pretty
I'm staying up late tonight
Me and my best friends gettin' shitty
Poppin' bottles in the club
And you know we gettin' drunk
('Til the sunrise up, the sunrise up)
('Til the sunrise up, the sunrise up)
('Til the sunrise up, the sunrise up)
('Til the sunrise up, the sunrise up)
('Til the sunrise up, the sunrise up)
('Til the sunrise up, the sunrise up)
('Til the sunrise up, the sunrise up)
('Til the sunrise up, the sunrise up)

I just did a car bomb
In the backseat of a car
I'm like a cellphone with no bars
Swing! motherfucker on par
We are, here for one reason
So keep the ratio even
And keep the radio beepin' (on and on)
Like simpsons season
Bleakin' on the bathroom floor
Got her wet like a thunderstorm
Sleep with me and not a whore (no!)
Daddy breaking down the back door
Ain't fuckin', then what the fuck you for?
Work it, where you get our source?
Twista, get on all fours
Off the lights, on the floor

I'm staying up late tonight
I'm in a forgien city
Poppin' bottles in the ice
And all these girls are pretty
I'm staying up late tonight

Me and my best friends gettin' shitty
Poppin' botles in the club
And you know we gettin' drunk
('Til the sunrise up, the sunrise up)
('Til the sunrise up, the sunrise up)
('Til the sunrise up, the sunrise up)
('Til the sunrise up, the sunrise up)

Lookin' at the sunrise, dumb high
Got game to get you girl
Sunside, onside, all of that
From b-town where the ballers at
Holla back if you my homie
If you're not, then get to know me
No snake but I might bite, girl
Half naked with a half white, girl (yeah)
Feeling like I have bites
Turn you on like a flashlight
Go man, oh hop on my bike
Like look ma, no hands
No plans but I'm spiderman
You mary jane, my fighter man
Vicodin, stop the beat
The sunrise look new to me

Can you see it?
What, where is it?
It's over there
Yeah it is
Over the horizon
The sun, the sun
It's rising

Til the sunrise up, the sunrise up
Til the sunrise up, the sunrise up
Til the sunrise up, the sunrise up
Til the sunrise up, the sunrise up
Til the sunrise up, the sunrise up
Til the sunrise up, the sunrise up
Til the sunrise up, the sunrise up
Til the sunrise up, the sunrise up
