Let the Street Bleed

Anna Aaron

I went out walking on the street with my love. Id walk on till my feet bleed.
I said Id kiss you if I only dared, my love. She said you know that helps not mine to give my love. Im tired of tearing you down with my love. Id rather turn it all around and take you to the places above. Im in love with a man who dreams of the devil every night I dont think I can heal him. But I d give every single part of my life.
Gonna be terribly late and in trouble my love. We cant escape our fate do you see, do you
