

# Everybody Does

**Judith Lefever**

Everybody laughs, everybody cries  
Everybody searches for the truth  
That only some will findEverybody aches inside  
Wonderin' what they lost to love  
Every now and then, everybody doesEverybody hopes, everybody needs  
Every child fantasizes life  
The way it's gonna beEverybody moves too fast  
Lisin' every dream that was  
Every now and then, everybody doesAnd I believe, that some how we'll find  
The sweetness of a second chance, if life is kind  
Everybody tries, everybody falls  
Everybody needs a lovin' handTo get them through it all  
Everybody knows inside  
That everybody loves because  
Every now and then, everybody doesAnd I believe and I believe  
That some how we'll find  
Some how we'll find, yeah  
The sweetness of a second chance, if life is kindEverybody laughs, everybody cries  
Everybody searches for the truth  
That only some will findEverybody knows inside  
That everybody loves because  
Every now and then, everybody does  
Every now and then, everybody, everybody does
