The Way I Do

Marcos Hernandez

Your kiss, your smile, your mind
You're sunlight in my eyes
I miss your breath on my neck
When we whisper in the night
Didn't wanna want you, didn't wanna need you so bad
Didn't wanna wake up and find that I was falling so fast
Didn't wanna need you, didn't wanna need anyone
Now look what you've done
Now I can't go on without you
I'm naked, I can't fake it
I'm not that strong without you
I never thought I could love you the way I do, yeah
Way I do
Your touch, your skin
Can't believe the way you let me in
Don't rush tonight
I need you like the ocean needs the tide
Didn't wanna want you, didn't wanna need you so bad
Didn't wanna wake up and find that I was falling so fast
Didn't wanna need you, didn't wanna need anyone
Now look what you've done
Now I can't go on without you
I'm naked, I can't fake it
I'm not that strong without you
Never thought I could love you the way I do
I always thought I would stand on my own
Climb a mountain top all alone
Relying, depending on no one
Now look at what you've done, I think I love you
Now I can't go on without you
I'm naked, I can't fake it
Now I'm not that strong without you
Never thought I could love you the way I do
Never thought I could love you, never thought I could need you
Never thought I could want you, baby, the way I do
Never thought I could love you, never thought I could need you
Never thought I could want you the way I do
I love you, I need you, I want you the way I do
I love you, I need you, I want you the way I do
