

# 11th Hour Escape (feat. Kush Arora)

MC Zulu

Faster than your red alert  
Motivating thru your countryside  
Raise up your bounty now  
Angels with the spotlights  
Only time I feel alive  
Fast Break, Get Away, 11th Hour Escape

-

Me slip the barricade again

-

Turn up the radio when the news is run  
You can't hold me back with no radar gun  
We welcome the rays of the rising sun  
Put out the dragnet because the bad man come  
CHORUS And when we get free celebration time  
The consequences so far from we mind  
I change my direction, point to due north  
Can't be tied down, life is too short

-

Dreadie flee corruption's beast over the open road.  
Safely from the bedroom you drons watch the episode  
Feel like the heavens a burn with helicopter lights  
I mon no beg skin teeth and me na compromise

-

Me slip the barricade again  
Sight the borderline  
Test the borderline  
Cross the borderline
