

Where Did We Go?

Avant

Oh, babe, we used to do everything
Now it's, it's like we do nothing
Oh, oh, in a lot of ways I blame myself but
I'm not the only one who plays it
We just, we need to talk
Cell phone, internet
Facebook, what's next?
(In this digital world)
Twitter, iPad
Email instant messages
(So much goin' on)
When we eat, we don't speak at the table
It's fallin' apart, it's too unstable
It's just a shame, I'm goin' insane
I'm trying to remain, continue to flame
But I need to know
(Where did we go?)
When I done tried everything in my heart
For us to get through this
(How would I know?)
That you would just walk away
And leave me with these words you said
It's hard for me to handle it
I don't feel relevant anymore
I'm feelin' like I'm losin' it
I don't want to deal with this anymore
(Where did we go?)
Stress, it reflects in our faces
Heart beats at different paces
I'm losing stability
And where's the humility that we once had?
Hey, layin' here lookin' up at the ceiling
Thinkin' what happened to all our feelings
Affection is gone, direction is goin'
The house is full but no one is home
(Where did we go?)
When I done tried everything in my heart
For us to get through this

(How would I know?)
That you would just walk away
And leave me with these words you said
It's hard for me to handle it
I don't feel relevant anymore
I'm feelin' like I'm losin' it
I don't want to deal with this anymore
(Where did we go?)
(Have you fell out of love with me, babe?)
And willin' to throw away the time we put in
(Why does it feel like it's goin' away?)
Love's on a rope and it's slippin'
The first time that you caught my eye
You was something that I couldn't pass by
Never wanted you to leave my side
All I wanna know is
(Where did we go?)
When I done tried everything in my heart
For us to get through this
(How would I know?)
That you would just walk away
And leave me with these words you said
It's hard for me to handle it
I don't feel relevant anymore
I'm feelin' like I'm losin' it
I don't want to deal with this anymore
(Where did we go?)
Have you fell out of love with me, babe?
(Where did we go?)
Why does it feel like it's goin' away?
(How would I know?)
Have you fell out of love with me, babe?
Why does it feel like it's goin' away?
