

Caution

Mariah Carey

[Verse 1]

Never too late, you can come through

I'll be up waiting

I don't want nobody but you

No hesitating

'Cause every time you leave I fall apart

Boy you're the missing pieces of my heart[Pre-Chorus]

And I try to let you go but you resist and pull me back

And I try to be alone but you persist, I've met my match

[Chorus]

Proceed with caution, don't be dishonest

I need you closer to love me harder

Proceed with caution, face to face

And touch me in a different kind of way

Proceed with caution, but don't make me wait

Before too long it just might fade away

Proceed with caution, caution, caution, caution, caution[Verse 2]

Never get enough gimme your touch

Don't wanna waste time

You lift me up, give me that rush

Tell me it's all mine

I'll give up everything to be right where you are

I'll follow you from here like you're the northern star[Pre-Chorus]

And I try to let you go but you resist and pull me back

And I try to be alone but you persist, I've met my match

[Chorus]

Proceed with caution, don't be dishonest

I need you closer to love me harder

Proceed with caution, face to face

And touch me in a different kind of way

Proceed with caution, but don't make me wait

Before too long it just might fade away

Proceed with caution, caution, caution, caution, caution[Bridge]

Do you want more material possessions? Ain't nothing

Do you want more? Can you commit to be my everything?

Do you want more? Baby convince me with the words you sing

If you wanna be more to me, you must proceed with caution

Caution, caution, caution

Caution, caution, caution

Caution, caution, yeah
Proceed with caution[Chorus]
Proceed with caution, don't be dishonest (Don't be dishonest)
I need you closer to love me harder (I need)
Proceed with caution, face to face (Proceed with caution)
And touch me in a different kind of way (A different kind if way)
Proceed with caution, don't be dishonest (Don't be dishonest)
I need you closer to love me harder (I need)
Proceed with caution, face to face
And touch me in a different kind of way (Touch me, touch me)
Proceed with caution, but don't make me wait
Before too long it just might fade away
Proceed with caution, caution, caution, caution
